**Trip Description:**

This luxury trip combines the warmth of the Fijian people, comfortable accommodation, the glorious Yasawa Islands aboard a Blue Lagoon cruise ship, with building houses for displaced peasant farmers with Rotary International.

The building project, located on the foothills just outside of Lautoka, is an incredible example of one man’s drive, passion and initiative to remedy the burgeoning shanty towns set up around the major towns of Nadi, Suva and Lautoka. That one man is Peter Drysdale, and through his vision, over 100 families have moved from appalling conditions to safe, cyclone-resistant housing near gainful employment, all in an ecologically sound and sustainable community village.

You can play a part in this by helping build one or more of these houses – the need is great!

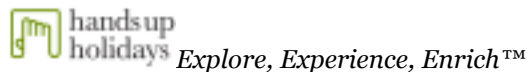

Upon your arrival in Nadi we travel via Fiji’s beautiful botanical gardens and the Sleeping Giant rock formation to delightful Bekana Island, our resort base for house building located a short drive away. Bekana Island is a wonderful place to relax after a day’s building, with walks, volleyball and of course swimming available.

Upon completion of building the houses, we say goodbye to our new friends and have three days on a cruise ship for three relaxing days around the stunning Yasawa Islands. You will eat well, and enjoy village visits and dancing, as well as plenty of opportunities to soak up the sun, snorkel, kayak, and even go flyfishing!
